HEC Paris MBA Scholarships 2026: Awards and Funding

Introduction

The HEC Paris MBA is a 16-month programme based near Paris. Tuition for the September 2026 and January 2027 intakes is ₹1.12 crore (€102,000). HEC Paris also estimates living expenses of about ₹27.72 lakh (€25,300) for 16 months. Scholarships can therefore make the programme easier to fund.

HEC Paris MBA scholarships reward academic strength, leadership, diversity and industry experience. Some awards use automatic consideration. Others require an essay or financial-aid form. This guide explains the main awards, the application process and practical funding tips for Indian applicants.

What Types of HEC Paris MBA Scholarships Are Available?

HEC Paris MBA Scholarship for Excellence is a major merit-based award. Every admitted candidate receives automatic consideration. The committee reviews academic results, the full application, interview performance and the applicant's GMAT score.

The award can cover up to 50% of tuition. Based on the current fee, this may equal about ₹55.89 lakh (€51,000). Candidates with more than 50% company or government sponsorship are not eligible.

HEC Paris MBA Scholarship for Diversity

The Diversity Scholarship supports candidates who can bring a distinct view to the classroom. HEC Paris considers factors such as culture, gender, academic history and professional background.

Applicants should use the final application essay to explain what they will add to the class. The award can cover up to 50% of tuition. Admitted candidates receive automatic consideration.

Laidlaw Scholars Program

The Laidlaw Scholars Program supports women with strong leadership potential and clear financial need. HEC Paris can offer up to 10 full-tuition scholarships in each graduating class.

The award can cover about ₹1.12 crore (€102,000). Selected students must pay a refundable deposit of about ₹5.48 lakh (€5,000) to confirm their place. They must still pay their own living expenses.

Admitted candidates receive a separate online form. It asks about their finances and includes motivation essays. Applicants have one week after receiving their admission result to submit the form.

Sanofi Life Sciences Scholarship

The Sanofi Life Sciences Scholarship is for applicants from healthcare and related fields. Eligible profiles include doctors, researchers, pharmaceutical executives and engineers working in medical technology.

HEC Paris and Sanofi offer up to 10 awards each year. Each award covers 75% of tuition, worth about ₹83.83 lakh (€76,500). Eligible admitted candidates receive automatic consideration. No extra application is required.

Forté Foundation Scholarship

The Forté Foundation Scholarship supports women with strong leadership records. HEC Paris also looks for work that supports other women through mentoring or community involvement.

The scholarship can reach about ₹28.49 lakh (€26,000). Applicants must first gain admission to the MBA. They may also need to submit an extra essay with the main application.

How Do You Apply for HEC Paris MBA Scholarships?

Submit the MBA Application

The first step is to submit a complete HEC Paris MBA application. Scholarship deadlines run alongside the MBA deadlines. Candidates must submit the programme application before they can receive scholarship consideration.

Your essays, résumé and references should tell one clear story. Show what you achieved, how you led others and why HEC Paris fits your career plan.

Understand Automatic Consideration

HEC Paris automatically reviews applicants for the Excellence and Diversity scholarships. Eligible candidates may also receive automatic consideration for awards such as the Sanofi Scholarship.

Automatic consideration does not guarantee funding. Applicants still need a strong academic, professional and leadership profile.

Complete Extra Requirements

Some scholarships require more work. Laidlaw applicants must submit financial information and motivation essays after admission. Forté and L'Oréal applicants may need to submit essays with the main MBA application.

Read every instruction carefully. A missing form or late essay may remove an applicant from consideration.

How Can Applicants Improve Their Scholarship Chances?

Show Clear Impact

Use facts instead of broad claims. Explain the challenge, the action you took and the final result. You can mention revenue gained, costs reduced, people managed or communities supported.

Explain Your Distinctive Value

HEC Paris values a diverse MBA class. Explain how your experience, culture or industry background will help your classmates. Connect your profile with relevant clubs, projects or events.

Present Realistic Career Goals

State the role and industry you plan to target after the MBA. Then explain how HEC Paris will help you reach that goal. A focused plan is stronger than a vague claim about becoming a global leader.

What Should Indian Applicants Know?

Plan Beyond Tuition

Indian applicants are eligible to compete for HEC Paris MBA scholarships. However, even a large award may not cover living costs. HEC Paris estimates 16-month living expenses at about ₹27.72 lakh (€25,300).

Prepare a budget for tuition, housing, food, insurance, visa fees and flights. Keep an exchange-rate buffer because the rupee cost may change before payment.

Combine Different Funding Sources

Do not depend on one scholarship. Combine HEC Paris funding with savings, family support, external scholarships or education loans. Compare interest rates, lender fees and repayment terms before choosing a loan.

Conclusion

HEC Paris MBA scholarships can reduce the programme cost by a large amount. Strong applicants show academic ability, leadership, clear impact and realistic career goals. Indian candidates should submit a polished application and prepare a complete budget for expenses that scholarships may not cover.
